Most memorable moment at Sans Souci either as a player or spectator? Watching my brother put away the goal against Connell's Point that saved us from being relegated from the Premier League. Had it not been for that goal I seriously doubt if the Premier League would exist as it does today.

What is your LEAST memorable moment at Sans Souci either as a player or spectator? The whipping we copped at the hands of Forest Rangers in the Grand Final, with one of the goals coming through a penalty given away by yours truly for an alleged handball.

Most memorable goal by you or another player? Again, Jeff Cunno against Connell's Point. Dario's free kick in the dying seconds against Lugga's in the GF and most of the free kick specials performed on Juan Christian Treby, just remarkable stuff.

Out of all the games you have played or watched, what is the one game that sticks out in your memory? The first Grand Final win against Penshurst the year after nearly being relegated. That game showed what this team/club is all about. It was a win carved out through sheer determination and a heck of a lot of heart from all involved in the Premier League. Followed very closely to the Senior Women's Grand Final win in 2008. The feeling of achievement that comes with coaching was indescribable.

Who is the opposition team you most respect/admire and why? Respect.....respect is something you earn so I respect those that have been there and done it....so I guess it would be either Penshurst or All Saints.

Who is the most difficult opponent? Definitely Kogarah. There is something in the water between Claydon and Scarborough that always makes Kogarah bring their A game every time they take the field against Sans Souci.

What is your favourite game of the season and why? I love the Olds Park clash. It's a but like going to Lang Park in front of a bunch of QLDers.....intense games are always had on that pitch.

Jennifer Hawkins or Megan Gale? I'm a Hawko man.

Potatoes - mashed, jacket or chips? Mashed with steak and pepper sauce.

Steak – well done, medium, rare, blue? Medium/well.

What would you spend your last \$10 on? Would be a packet of durries but thanks to inflation \$10 wont even buy you that these days, so I guess I would put it in the Kitty and reap the benefits of my \$10 at the end of the year at SHOOTERS!!!

Thanks for spending sixty seconds with Dazza.
